DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2, 3, 5-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 2 is not worded right. I says that there is one peaks which extends from 11.24 to 12.44; sure that is not applicants' intention.
2. The range of the "solvent" in claim 3, step A is unclear. As written, it can be any solvent, including acetone, which would make no sense.
3. Claim 3, step B says to dissolve the solution in acetone, but one dissolves a solid, not a liquid. Does applicant intend adding the concentrate to acetone? Likewise claim 6.
4. The term "de-acetonizing" in claim 5 is indefinite. This is not a standard term of art. An actual, physical step or steps must be set forth. Likewise claim 6.

Information Disclosure Statement

One reference was struck as it fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, about the content of the information, as it is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. Moreover, the citation to it was incomplete, as it is unknown what it is official action of, or for.
